## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments, see pages 2-3 of Remarks, filed on 07/03/2007, with respect to rejection of claims 1 and 9 have been fully considered and are persuasive.

The rejections have been withdrawn.

### *Allowable Subject Matter*

2. Claims 1-16 are allowed. The following is an examiner's statement of reasons for allowance:

As to claims 1 and 9, a comprehensive search of prior art of record (e.g. see the prior art references cited in the previous Office Actions) failed to disclose, either alone or in combination, an apparatus, comprising: a correlation unit for obtaining a correlation function of a received synchronizing signal and a reference synchronizing signal; a first estimating unit for estimating a first multi-path by applying a first threshold value to the correlation function of the first received signal; a correlation noise removing unit for obtaining a correlation function of a second received signal by removing correlation noise included in the correlation function of the first received signal; and a second estimating unit for estimating a second multi-path by applying a second threshold value to the correlation function of the second received signal in which the correlation noise has been removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
